EMPOWERING INDUSTRIALISATION
“WE ARE THERE WHERE YOU NEED US”
In the words of the legendary footballer Pele, “Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do.”

As we look back on the 20 years of the presence of Wilh. Loesch in India and the journey thus far, we realise that our success has surely not been an accidental achievement. It has been a lot of hard work, success and some failures, but the strong will to succeed and determined perseverance, coupled with the constant will to learn has made us arrive at what we set out 20 years back to achieve.

Over the years, we saw great relationships build with colleagues, clients, vendors, service providers, and we have weathered through the struggles to proudly say that we have achieved what many just dream of. We fell in love with the work that we do, and it has now become a part of our lives, and the passion today is much stronger as we prepare to face the new decade ahead.

Our group of companies have always lived by our corporate tagline of ‘Someone to rely on’ and we have persistently tried to live up to this. As we look back and reminiscence over the 100s of successful projects delivered globally and the value we have added to the businesses of our clients & customers, we are proud of what we have achieved.

The new world has brought many challenges, and we at Wilh. Loesch group realise the need to keep creating new and progressive approaches in our service offerings and operations, and to continue to contribute to the growth of our customers. As result we have diversified and added services that we are confident will add value to the growth of our customers, and as a result continue to achieve greater success for us a business as well.

At this moment I would personally like to thank each one of our colleagues across the globe, along with every individual who has in his or her own way contributed to our success story. Without you seeing the same dream and supporting the vision, we would not have been who we are today.

Our success would not have been possible without the trust of our customers, who have shared in our incredible journey over the last 2 decades. And we look forward to continuing to serve and support all of you in our efforts to exceed expectations and build further on that trust.

Thank you once again and let us persevere to achieve greater success – Together!
